European Commander, Allied Air Forces, Southern Europe
1000 Defense Pentagon

U. S. A.

Dear Lt. General SHORT:

We have learned that your son was shot down during one of his 40 missions in the southwest part of our native land Serbia - Kosovo and Metohija. We express our deep sorrow for your innocent son and other innocent American boys being forced to expose themselves to risks to their lives by bombarding our parentland and by trying to wound or kill the equally innocent people of Serbia and Montenegro.

We would join you if you wished to express your justifiable complaints and deep suffering, which we sincerely share, to the person who is responsible for pushing young Americans to bombard the innocent people of Serbia and Montenegro, who have not attacked any other country and who have been traditionally allied with the people of the United States of America - to Mr. William Jefferson CLINTON, President of the United States of America.

Sincerely,
