Honorable **Sir Wasteneys**,

In these extremely difficult circumstances for our dear native people - Serbian people, there are decreasingly few courage, honest and just people who have a noble spirit and human feeling to speak in public about the on going crime and its consequences against the Serbs.

Among those few, a person who has devoted the whole life for the freedom, justice and humanity of people, the person who has consistently fought for these goals by risking his own life, the person who has been the friend of the Serbian people is the only foreigner who has dared to sign our petition to the UN the former RAF pilot who was spreading the nobility of liberty over the sky to the mankind.

Dear **Sir Geoffrey Wasteneys**, your support to us by signing the petition should be inspiration for young people, and we believe, in particular for young Serbs. We would like to be able to express our gratitude to you in the free Serbian United State in near future. Until that time, we wish to express to you our appreciation of all your wonderful friendship for the Serbs.

Let God bless your noble family and you, honorable **Sir Geoffrey Wasteneys**.

Lyubomir T. Gruyitch
