Dear reader,

The email received this afternoon, which follows, provokes me to express the next brief personal observations in public on why the peoples of R. Serbia and F. R. Yugoslavia, and Serbian people are not responsible for what Mr. Slobodan Miloshevitich, his Governments and supporting Parties, were doing and why he, and all other citizens of these countries, should be returned from Hague to Belgrade.

In view of the Decision of the Federal Constitutional Court of F. R. Yugoslavia of November 2001, the Governments of R. Serbia and of F. R. Yugoslavia are obliged to get as soon as possible returned Mr. Slobodan Miloshevitich to Belgrade. They should demand his return, as well as the return of all other citizens of R. Serbia and/or of F. R. Yugoslavia, from Hague to Belgrade without any further delay. His and their extradition to the Court of Hague was against the Constitutions of R. Serbia and of F. R. Yugoslavia. These states are constitutionally obliged to protect their citizens and to enable them fair judgments in the domestic country. He and they should be judged fairly and publicly in Belgrade.

Mr. Slobodan Miloshevitich has been constitutionally responsible to the people of R. Serbia and of F. R. Yugoslavia.

If the Court of Hague had been legitimately established and constituted, if it has been a fair and a really international Court of Justice and Freedom, then it would have considered responsibilities of all those who have been responsible for the war in (ex - S. F. R.) Yugoslavia and/or suspected for involvement in crimes in Yugoslavia nevertheless what are their citizenships, nationalities, religions, wealth, reputations, political attitudes and/or state positions. Just to mention Presidents of other five Republics of Yugoslavia, the President of the Federal Government of Yugoslavia and the President of the Federal Parliament of Yugoslavia (1990 – 1992), as well as those Presidents and Governments of the NATO countries who and which were forcing the unconstitutional separation of the four republics from Yugoslavia and/or were leading and ordering the bombardments and occupation of Republika Srpska and/or of Serbia, as well as the bombardment of Montenegro.

Mr. Miloshevitich did neither get support of majority of people of R. Serbia at the elections of 1992 nor of people of F. R. Yugoslavia when he was elected by the F. R. Y. Parliament (not by people) in an irregular procedure for the President of F. R. Yugoslavia. The real attitude of the people of R. Serbia and of F. R. Yugoslavia to Mr. Miloshevitich finally, after all the demonstrations of March 1991 and 1992 in Belgrade, and throughout Serbia for three months 1996/1997, got opportunity to appear in public on 22 September 2000 and to become effective on 5 October 2000. He was ignoring all: the interest, the will and the attitude of the people, and the Constitutions. For example: he, together with the Presidents of all other five Republics of Yugoslavia ignored the Constitution of Yugoslavia by usurping the competence of the Federal Parliament of Yugoslavia (1990 – 1992) (which eased the occidental Governments and Presidents to ignore the Constitution of Yugoslavia in spite their countries were recognizing officially Yugoslavia, hence its Constitution); he unconstitutionally accepted the competence and the responsibility to represent another state when he was the President of R. Serbia; he publicly ignored completely the decision of the people's referendum of 1998.

What are justifications to transfer responsibilities for what he was doing to the people of Serbia, to the people of F. R. Y., and to Serbian people?

If somebody should share responsibilities with him, then those who were supporting and/or executing the unconstitutional and/or illegitimate attitude, decisions and moves of Mr. Miloshevitich as the President of R. Serbia and of F. R. Yugoslavia should share the responsibilities with him. They should not continue trying to escape such a share by representing their responsibilities as the responsibilities of the people of R. Serbia, of the people of F. R. Yugoslavia and/or of Serbian people.

The same holds for the Court of Hague: it should not have unjustifiably transferred the responsibilities of Mr. Miloshevitich to the people of R. Serbia, to the people of F. R. Yugoslavia and/or to Serbian people.

The Court in Belgrade is in charge to consider and to decide about the responsibilities of citizens of R. Serbia and of F. R. Yugoslavia, hence of Mr. Slobodan Miloshevitich, as well as of all other their citizens extradited to the Court of Hague.

The Governments of R. Serbia and of F. R. Yugoslavia should not continue ignoring their one Court, which becomes then the ignorance of the state and of the people including the ignorance of the Governments themselves.

The occidental media that aim to fairly inform their public should join those, like consistent "Balkan Info" in France, which have been correctly informing their readers, their audience.

The above observations might be helpful to the ICTY to reject the transfer of the accusations against Mr. Slobodan Miloshevitich, or against any other person, to the people of R. Serbia, to the people of F. R. Yugoslavia or to Serbian people.
