Dear Excellency Mr. President Obama,

This concerns the below news.

Do you accept that domestic and foreign pupils and/or students of non-religious schools and universities must recite a religious book and pray a religious Superior, e.g. in this concrete case to recite Quran and pray Allah?

I hope the Americans will recover under your leadership completely their freedom and human rights as guaranteed by the USA Constitution and defended worldwide by noble American sacrifice during the World Wars so that the USA Government recover the human values of the USA and the American people in both internal and foreign affairs.

When I say Americans I think of all, both the American Indians and the citizens of the USA.

* I checked District of Columbia on <http://www.whitehouse.gov/contact/> because there is not a possibility to check for a foreign country in spite this issue concerns the whole world due to the fact that there are pupils and students from various countries in USA schools and Universities and many USA schools and universities exist worldwide, e.g. my children were students of Indiana University at South Bend, of Louisiana State University at Baton Rouge, USA, and were graduated with American University of Paris, France.

I was Visiting scholar of several USA universities (Associate Researcher at the University of Santa Clara, 1971, Visiting Professor at Notre Dame University, South Bend, and at Louisiana State University 1988 – 1990). They were faithfully educating students in the spirit of the best human freedom and equality of rights. I hope it will be rather preserved than destroyed.

Respectfully yours,

"This article needs to be seen by as many as possible. The United States has laws on freedom of religion. The school has violated the concepts of freedom of religion when they force children in schools to pray to a God that is not theirs, in a language that is not theirs, to debase themselves to a foreign religion that is not theirs, to dress in religious clothes that are not theirs and to pray to a God and religion that their parents would disapprove of. If the children simply learned about Islam and Muslims in the same manner as Muslim children are taught about Christianity their parents would not have taken the school to court in California. Why the court is standing firm with the schools is a matter of foreign policy concerns with Islam. Intellectualism and Atheism has been destroying the Christian ethic in the western world and is helping Islam to become superior. Perhaps the atheists and intellectuals hate Christianity so much that they would destroy everything they believe in to destroy Christianity utterly. You do not have to believe in God or Christianity if you do not want too, but Islam will force you to become one of them or kill you if you do not. It seems that atheists and intellectuals hate the wrong religion and for all the wrong reasons. "
